

2025 Value Based Reimbursement (VBR)

METRICS

Measurement period:

- Participation metrics: *January 1, 2024 – November 15, 2024*
- Quality Improvement (QI) metrics: *July 1, 2023 – June 30, 2024*

Fee Increase	Metric	Metric type
102%	<i>3 of 3 Physician level required metrics met</i>	
	1. Surgeon attendance at 3 of 3 site-based quality improvement (QI) meetings	Participation
	2. Direct access to clinical office notes to abstract 90-day events for 99% of MARCQI surgeon cases	Participation
	3. Share and discuss 2024 MARCQI Individual surgeon level report after downloading from MARCQI data registry with 2 peer orthopaedic surgeons	Participation
	<i>2 of 3 Physician level other metrics met</i>	
	4. PROS collection (pre-op & 2-16 week post op) completed in $\geq 60\%$ of all performed cases	QI
	5. Surgical site attestation with MARCQI participation plan	Participation
	6. Identify quality improvement next steps following 2024 MARCQI Individual surgeon report review	QI
	<i>1 of 3 Collaborative-wide level metrics met</i>	
	7. 90-day hip fracture following total hip arthroplasty (excluding conversions) is reduced by 10% to 1.05%	QI
	8. Post-operative opioid prescribing patterns following total knee arthroplasty for opioid naïve patients at a rate of 85%	QI
9. Device utilization data: 92.5% of MARCQI site clinical champions will communicate device outcomes to their site c-suite leadership (and if relevant at the time, their purchasing group) as seen in the MARCQI 2023 Annual Report	Participation	
103%	<i>6 of 6 Physician level metrics met</i>	
	<i>2 of 3 Collaborative-wide level metrics met</i>	
105%	<i>6 of 6 Physician level metrics met</i>	
	<i>3 of 3 Collaborative-wide level metrics met</i>	

2025 Value Based Reimbursement (VBR) TIMELINES

Metric	Timelines
<i>3 of 3 Physician level required metrics met</i>	
1. Surgeon attendance at 3 of 3 site-based quality improvement (QI) meetings	<ul style="list-style-type: none"> • 1st meeting attendance: 02.03.2024 – 06.06.2024 • 2nd meeting attendance: 06.08.2024 – 09.26.2024 • 3rd meeting attendance: 09.28.2024 – 11.15.2024
2. Direct access to clinical office notes to abstract 90-day events for 99% of MARCQI surgeon cases	Cases performed: 07.01.2023 – 06.30.2024
3. Share and discuss 2024 MARCQI Individual surgeon level report after downloading from MARCQI data registry with 2 peer orthopaedic surgeons	<ul style="list-style-type: none"> • 10.16.2024 – Last day to request a surgeon database account • 11.01.2024 – Last day to download 2024 Individual Surgeon Report and share with peers • 11.15.2024 – Last day for peers to submit their peer review attestation
<i>2 of 3 Physician level other metrics met</i>	
4. PROS collection (pre-op & 2-16 week post op) completed in ≥ 60% of all performed cases	Cases performed: 07.01.2023 – 06.30.2024
5. Surgical site attestation with MARCQI participation plan	• 11.01.2024 – Last day to provide surgical site attestation
6. Identify quality improvement next steps following 2024 MARCQI Individual surgeon report review	• 11.01.2024 – Last day identify quality improvement next steps following surgeon report review
<i>1 of 3 Collaborative-wide level metrics met</i>	
7. 90-day hip fracture following total hip arthroplasty (excluding conversions) is reduced by 10% to 1.05%	Cases performed: 07.01.2023 – 06.30.2024
8. Post-operative opioid prescribing patterns following total knee arthroplasty for opioid naïve patients at a rate of 85%	Cases performed: 07.01.2023 – 06.30.2024
9. Device utilization data: 92.5% of MARCQI site clinical champions will communicate device outcomes to their site c-suite leadership (and if relevant at the time, their purchasing group) as seen in the MARCQI 2023 Annual Report	• 11.15.2024 – Last day for clinical champions to submit a letter regarding device utilization to their C-Suite
