

When to answer MARCQI PRO?

Your doctor needs to know how your hip or knee is doing before and after surgery. Questionnaires answered before surgery and 1 year after surgery help your doctor see how much the surgery helped you.

Before surgery

No more than 90 days before surgery

After surgery

- 2-16 Weeks
- 4-6 Months
- 1-Year
- 2-Year
- 5-Year
- 10-Year

About my MARCQI PRO

Patient Reported Outcomes

Understanding and improving
outcomes after total hip and knee
replacement surgery

What Is MARCQI?

Michigan Arthroplasty Registry Collaborative Quality Initiative (MARCQI) is a group of doctors in Michigan who focus on hip and knee replacement surgery. They team up to make sure that the people getting these surgeries get the best care possible, both now and in the future. Your own doctor is part of this group and cares about continuing to improve the care they provide.

What Is MARCQI PRO?

MARCQI's Patient Reported Outcomes (PRO) wants to make it easy for you to share how your joints feel before and after your surgery. You will fill out some simple questionnaires that ask about:

- How well you are feeling
- How easily you can do everyday jobs
- How much pain you are having

Who participates in MARCQI PRO?

- Your doctor wants all patients getting a hip or knee replacement to answer the simple questionnaires.
- If you fill out these forms, it helps your doctor learn more about the health of your joints, how to help you with your pain, and how well you might walk or move after getting your new hip or knee.

Why MARCQI PRO?

Only you can share important information about how your hip or knee feel before and after your surgery:

Before surgery, what you tell your doctor helps them plan for your surgery.

After your surgery, what you tell your doctor help them know how well you are doing, follow your improvement, and help you heal.

What happens to my responses?

- Your doctor will keep what you say just between the two of you.
- Your answers will be used, without your personal information like your name or date of birth, to help make joint replacement surgeries better for patients in Michigan in the future.

How do I participate in MARCQI PRO?

After you set a date for your surgery, your doctor might ask you to answer your MARCQI PRO questions in one of these ways:

Email

- Look for an email from marcqi@mail.ortechsystems.com with the subject "Important questionnaire from Dr. [doctor's last name]"
- Select the link in the email to complete the questionnaire

Tablet

- Usually done in your doctor's office

Paper

- Usually done in your doctor's office if there is no tablet
- You might get these in the mail to finish. After that, you can send them back in the mail.

Phone

- Your doctor's office calls you to ask you the MARCQI PRO questions
